

A small zpres Deck

Three slides are enough to exercise the
authoring loop.

One slide, one claim

The Source should keep the Main path visible while you edit.

1. Write the claim.
2. Add the evidence.
3. Move optional detail off the Main path.

Detail: commands used while authoring

```
zpres check talk.zp.md --strict  
zpres serve talk.zp.md  
zpres export talk.zp.md --pdf talk.pdf
```

Publish both Output targets

○ LIVE HTML

Use navigation, Steps, and speaker notes while presenting.

□ STATIC PDF

Keep a portable fallback with the same authored argument.
